

Full-HD (1920 x 1080) Wide Dynamic Cameras from Sony Vision with Precision – HD Security

Sony is pleased to introduce its first full-HD (1920 x 1080) network HD cameras, the SNC-CH240 and SNC-DH240. These dual-stream network full-HD cameras, supporting H.264, MPEG-4, and JPEG compression formats, deliver excellent picture quality in 1080p HD resolution at 30 frames per second (fps).

Incorporating the new Exmor™ CMOS image sensor from Sony, which is specially designed for surveillance applications, these cameras feature state-of-the-art image-enhancement technology, such as View-DR which demonstrates an extremely wide dynamic range.

As a result, these cameras not only provide high-quality full-HD images but additionally deliver excellent sensitivity and visibility even in challenging lighting environments.

The SNC-CH240 Fixed Network Camera and SNC-DH240 Mini Dome Network Camera are ideal for the most demanding surveillance applications, especially airport and city surveillance.
